1234 Maple Street, Seattle, WA 98101 · April 09, 2026

Prepared by Peipei Guo · WA#12345

01

Purchase Recommendation

Address	1234 Maple Street, Seattle, WA 98101
Asking Price	\$750,000
Size	1,800 sqft · 3 bed · 2.0 bath · Built 1998
Report Type	Buyer

NEGOTIATE

Confidence: 78%

The property is priced slightly below its estimated value of \$761,250, suggesting reasonable value at \$750,000. However, with the downtown Seattle market currently balanced to slightly favoring buyers and average days on market at 25-35 days, there is room to negotiate a modest discount. The solid condition score of 84/100 and favorable price-to-value ratio make this a sound investment if a small concession can be secured.

Trust Level	HIGH — All validation checks passed
Price Assessment	Fair

Property Condition

Condition Score	84/100 — Good
-----------------	---------------

Strengths & Risks

+ Priced approximately 1.5% below estimated market value of \$761,250, offering built-in equity from day one	- Downtown Seattle has experienced price declines in 2022-2023 and full recovery is not yet confirmed, posing short-term depreciation risk
+ Strong downtown Seattle location near Pike Place Market and Belltown with excellent walkability, transit access, and long-term appreciation potential	- Monthly mortgage of \$4,072.73 is substantial and requires strong income or rental offset to maintain comfortably
+ Good condition score of 84/100 suggests limited immediate repair or renovation costs	- Downtown urban core properties can be sensitive to economic downturns, remote work trends, and shifts in urban livability (safety, homelessness concerns)
+ Asking price falls within the upper range of the area's median home price (\$650K-\$750K), indicating alignment with local comps	- Balanced-to-buyer's market conditions suggest limited near-term price appreciation and potential for further softening

Asking Price	\$750,000
AI Estimated Value	\$761,250 (+1.5% vs asking)
Confidence Interval	\$723,188 – \$799,312
Condition Adjustment	+1.5% applied based on interior condition assessment
Confidence Level	High

Condition Assessment Reasoning:

Property shows positive condition indicators with recent kitchen renovation and acceptable roof age, supported by a 'Good' condition score of 84. However, the asking price of \$750,000 is at the high end of the median range (\$650k-\$750k) in a balanced-to-slight buyer's market with elevated inventory, warranting a modest net positive adjustment of 1.5% to reflect the property's above-average condition relative to market comparables.

Financial Model

Monthly Mortgage	\$4,073 (30yr fixed, 7.2% rate)
Down Payment	\$150,000 (20.0%)
Loan Amount	\$600,000
Total Interest Paid	\$866,183 over 30 years

Comp Median Sale Price	\$725,000
Comp Median Price / Sqft	\$404
Target Price / Sqft	\$417
Target vs Comp Median	+3.5%
Fair Value Range	\$703,750 – \$760,250
Market Verdict	fairly priced

Price Position Analysis:

This property is 3.45% above the comp median of \$725,000. The target's asking price of \$750,000 reflects a modest premium that is partially justified by its renovated kitchen (compared to the median comp which had only partially updated or original kitchens) and its reasonable roof age. However, the target's 1,800 sqft and condition score of 84 are close to the median comp profile (1,780 sqft, condition score 80), suggesting only a slight premium is warranted rather than a large one.

Condition Adjustment Factors vs Comp Average:

Factor	Price Impact
Renovated kitchen vs comp median (1102 Seneca) which has only newer appliances but original cabinets and no full kitchen renovation	+3.0%
Roof age 8 years vs comp median roof age of ~10 years (1102 Seneca at 10 years); slightly newer roof reduces near-term replacement risk	+0.5%
Condition score 84 vs comp median condition score of 80 (1102 Seneca at 80); target is in moderately better overall condition	+1.0%
No additional half-bath compared to superior comp 2051 Marion (2.5 bath) which sold at \$775,000; target has standard 2.0 bath layout matching median	+0.0%
Year built 1998 vs comp median year built ~1997 (1102 Seneca at 1997); negligible age difference provides no meaningful premium	+0.0%
Sqft 1,800 vs comp median 1,780 sqft (1102 Seneca); marginal 20 sqft advantage is minimal	+0.3%

Address	Interior Condition	Key Differences vs Target	Listing
1418 Pine Street, Seattle, WA 98101	Very good — renovated kitchen with quartz countertops, updated bathrooms with tile surrounds, engineered hardwood throughout	Slightly larger sqft and 2 years newer construction; similar kitchen renovation but newer roof at 5 years old	View listing
907 Spring Street, Seattle, WA 98104	Fair to good — original kitchen with laminate counters, one updated bathroom, carpet in bedrooms with hardwood in living areas	Smaller by 80 sqft with no kitchen renovation; older construction and lower overall condition; roof is 12 years old	View listing
2051 Marion Street, Seattle, WA 98104	Excellent — fully remodeled kitchen with stainless appliances, spa-style master bath, refinished hardwood floors throughout	Larger at 1950 sqft with an additional half bath; newer build year and higher condition score; includes recent bathroom remodel not present in target	View listing
1102 Seneca Street, Seattle, WA 98101	Good — kitchen has newer appliances but original cabinets, standard bathrooms, mix of laminate and carpet flooring	Very similar size and layout but kitchen only partially updated; slightly older by one year with a 10-year-old roof; longer time on market suggests less buyer demand	View listing
1540 Boren Avenue, Seattle, WA 98101	Average — dated kitchen with older appliances, original bathrooms with vinyl flooring, carpet throughout bedrooms showing wear	Smaller at 1680 sqft with only 1.75 baths; no kitchen renovation and older construction year; lower condition score with deferred maintenance on exterior	View listing

Use the current balanced-to-buyer's market conditions and stabilizing (not yet appreciating) price trends to justify an offer of \$725,000-\$735,000. Reference average days on market (25-35 days) to signal the seller may face extended listing time. Additionally, any deferred maintenance items implied by the 16-point gap from a perfect condition score can be cited to request price concessions or seller-funded repairs/credits at closing.

Suggested Offer Range	\$703,750 – \$760,250
Potential Savings vs Asking	Up to \$46,250 if offer accepted at fair value low
Opening Offer Suggestion	\$703,750 (bottom of fair value range)
