Repair Cost	No inspection data	No inspection data
Composite Score	52/100	48/100

Composite Score

1234 Maple Street	52
567 Pine Avenue	48

★ TOP PICK

1234 Maple Street, Seattle, WA 98101

Top pick because: priced 1.5% below estimated value, strong condition score (80/100).

The property is listed approximately 1.5% below its estimated value of \$761,250, suggesting a slightly underpriced opportunity in a recovering downtown Seattle market. However, with average days on market at 45-60 days and the market still stabilizing after 2023 softness, there is room to negotiate a better deal. The condition score of 80/100 is solid but leaves some room for improvement costs that can be leveraged in negotiations.

Top Pick — Strengths & Risks

+ Listed below estimated market value by ~\$11,250, offering immediate equity potential	- Downtown Seattle market is still in recovery mode after 2023 declines — further softness is possible
+ Prime downtown Seattle location with strong long-term appreciation fundamentals	- Monthly mortgage of \$4,072.73 is substantial and requires strong income or rental offset
+ Good condition score (80/100) reduces immediate major repair or renovation costs	- Condo-dominated market may carry HOA fees not reflected in the mortgage estimate
+ Urban core location benefits from walkability, transit access, and proximity to employment centers	- Urban core properties can be sensitive to economic downturns, remote work trends, and public safety concerns
	- Condition score of 80/100 implies some deferred maintenance or needed upgrades

#1 ★ TOP
PICK

1234 Maple Street, Seattle, WA 98101

Asking Price	\$750,000
AI Est. Value	\$761,250 (+1.5% vs asking)
Verdict	NEGOTIATE (confidence: 72%)
Condition Score	80/100 — Good
Monthly Payment	\$4,073
Comp Median	\$735,000 (+2.0% vs asking)
Repair Cost	No inspection data available
Composite Score	52/100

The property is listed approximately 1.5% below its estimated value of \$761,250, suggesting a slightly underpriced opportunity in a recovering downtown Seattle market. However, with average days on market at 45-60 days and the market still stabilizing after 2023 softness, there is room to negotiate a better deal. The condition score of 80/100 is solid but leaves some room for improvement costs that can be leveraged in negotiations.

Negotiation Strategy

Use the extended average days on market (45-60 days) and the still-recovering downtown market conditions to justify an offer of \$720,000-\$735,000. Highlight the condition score gap from perfect (80/100) to request credits or price reductions for anticipated repairs. Reference 2023 price softness and ongoing market uncertainty to reinforce that sellers should be motivated to close quickly rather than risk further market fluctuations.

#2

567 Pine Avenue, Seattle, WA 98103

Asking Price	\$820,000
AI Est. Value	\$799,500 (-2.5% vs asking)
Verdict	NEGOTIATE (confidence: 72%)
Condition Score	80/100 — Good
Monthly Payment	\$4,453

Comp Median	\$815,000 (+0.6% vs asking)
Repair Cost	No inspection data available
Composite Score	48/100

The property is listed approximately 2.6% above its estimated value of \$799,500, making it slightly overpriced in a balanced-to-buyer-friendly market. The good condition score (80/100) and desirable Seattle 98103 location provide solid fundamentals, but current market dynamics and the pricing gap offer room for negotiation. A target offer in the \$790,000–\$800,000 range would better align with fair market value and reduce overpayment risk.

Negotiation Strategy

Use the \$20,500 gap between asking price and estimated value as the primary negotiation anchor. Cite the balanced-to-buyer's market conditions, 25-35 days on market average, and moderate inventory levels to justify a lower offer. Request a home inspection to identify specific issues behind the 80/100 condition score, which can further support price reduction requests. A competitive but fair opening offer of \$790,000–\$795,000 (3.0–3.7% below asking) is well-supported by the data.
